

Compact Cash Recycling ATM for Unsurpassed Amount of Convenience and Speed to Customers

For financial institutions where cash handling cost is a high-priority

Features

- **Optimum Solution** - Advanced cash recycling technology built by Nautilus Hyosung can help financial institutions benefit from lower cash management costs and improved availability of their ATM network. Monimax8600's totally unique and compact design also enhances the space efficiency of the branch.
- **Unsurpassed Flexibility** - Monimax8600 offers multiple options from cash dispensing, to cash deposit and cash recycling. All 5 cassettes can be operated independently in dispense, deposit or recycling mode to enable optimum utilization of the cassettes for an effective ATM operation based on the environment.
- **Maximum Reliability** - Designed and engineered with reliability you've come to expect from Nautilus Hyosung, Monimax8600 incorporates proven cash recycling technology widely regarded as the best in the industry. Ease of maintenance and simplified service also ensure maximum availability and uptime with minimal operational intervention.
- **Protection You Can Depend On** - Compliant with security standard worldwide, Nautilus Hyosung continues to offer the most current and advanced security solutions to protect your customers and assets. Monimax8600 can be easily integrated into any existing monitoring solution, providing seamless data transfer for the effective management of the self-service network.
