

PKB-111+

# PKB-111+ Series

Programmable Point-of-Sale Keyboard

Optional for MSR Card Reader

2-in-1 utility Windows and DOS programmable keyboard

### Special Features:

- Supports WIN and DOS utility in one programmable keyboard; which is good to lessen your inventory load.
- Full-Height Cherry key switches to ensure the heavy duty frequent operating.
- True keyboard wedge function; operating with or without the normal computer keyboard
- No TSR program required; avoids application software crashes
- Each key can be programmed up to 255 bytes, depending on the size of the built-in non-volatile memory.
